

LUNA LUCY & THE PLANETS

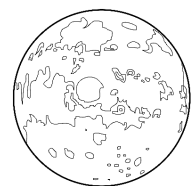

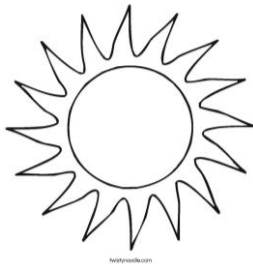

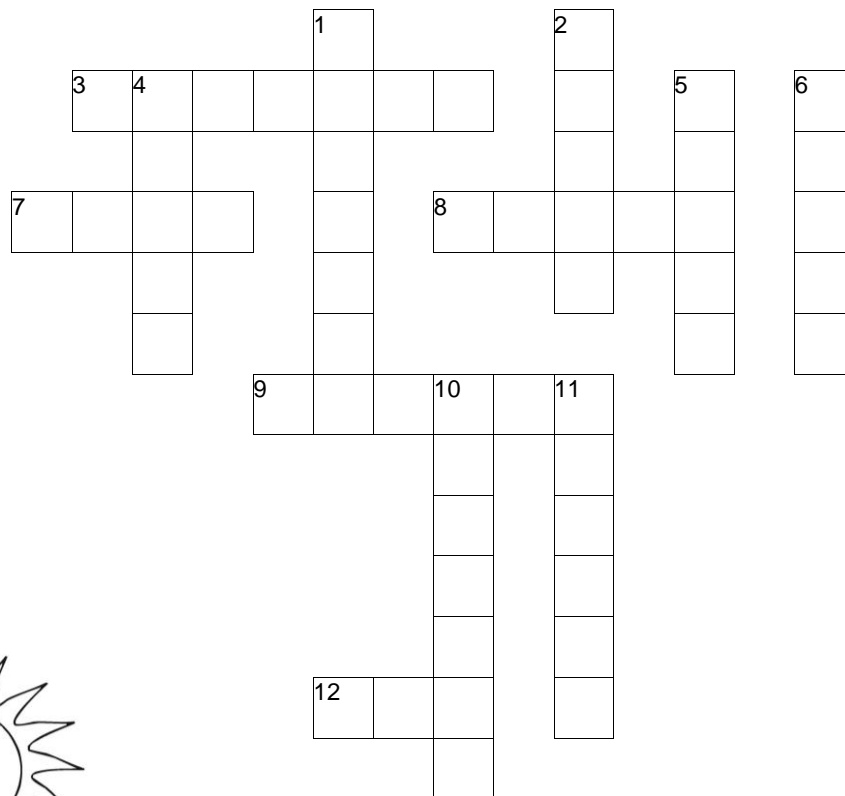

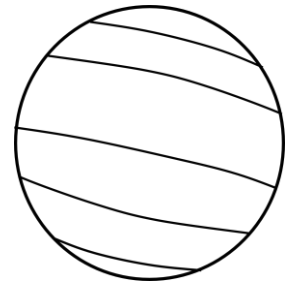

Name:

Name: _____

Date: _____

Luna Lucy and the Planets

Across

- 3. Smallest planet.
- 7. Planet with North and South Poles
- 8. Once considered the ninth planet from the sun.
- 9. Stinky planet.
- 12. Largest part of Solar System

Down

- 1. Largest planet.
- 2. Hottest planet.
- 4. Planet we call home.
- 5. They orbit planets.
- 6. How many planets in the solar system?
- 10. Name of Lucy's dog.
- 11. The planet with colourful rings.

Luna Lucy and the Planets

1. Once considered the ninth planet from the sun. **A. Mars**
2. Largest planet. **B. Jupiter**
3. How many planets in the solar system? **C. Venus**
4. Smallest planet. **D. Uranus**
5. Hottest planet. **E. Mercury**
6. Name of Lucy's dog. **F. Neptune**
7. Planet we call home. **G. Pluto**
8. Planet with North and South Poles **H. Eight**
9. The planet with colourful rings. **I. Saturn**
10. Stinky planet. **J. Moons**
11. Largest part of Solar System **K. Sun**
12. They orbit planets. **L. Earth**

Cut and Glue the following pictures in order:

 <p>Saturn</p>	 <p>Mercury</p>	 <p>Mars</p>
 <p>Uranus</p>	 <p>Sun</p>	 <p>Venus</p>
 <p>Neptune</p>	 <p>Earth</p>	 <p>Jupiter</p>
